HONESTY IS THE BEST POLICY

Meetings This Day.

Marion Lodge, at 8 P. M. Central Club, at 8 P. M.

Auction Sales This Day.

William McKay will sell at 11 o'clock, at his store, cotton gins, furniture, &c. Miles Drake will sell at 10 o'clock, at his store, boots, shoes and hats.

NEW CORONER.-Mr. S. B. Thompson has resigned the office of coroner of Richland County, and Mr. Isaac H. Coleman been appointed in his stead.

CRUMBS.-A picked nine has accepted the challenge of the Palmetto Base Ball Club, and the game will be played upon the Citadel Green this afternoon.

CLUBS AND STARS .- A man named Symonds. arrested for stealing hotel property, is held tor examination.

John Drissell, charged with stealing clothing from Mrs. O'Connor, has been sentenced to thirty days' imprisonment.

REMOVAL OF COTTON PRESSES. -Mr. McCabe the owner of the old Calhoun cotton presses, which have been hitherto located on Church street, near Broad, has removed them to Union wharves, at the foot of Hayne street, a far more convenient locality, where he has another press in operation. He has also erected an immense cotton shed there, having ample accommodation for several thousand bales of cotton.

OFR PRICES CURRENT.—We especially invite the altention of our merchants to THE NEWS Prices Current, issued this morning. Made up with the utmost care, and handsomely printed with entirely new type, it forms, with the business card of the house forwarding it, the most attractive and welcome weekly commercial circular that can be used. Price, for ten copies or more, with business cards, two and a half cents per copy; single copies five cents.

ANOTHER NEW FIRM .- Messrs. J. K. Heath and W. F. Rice have entered into a copartnership for the purpose of conducting a wholesale liquor and cigar business at No. 9 Hayne street. They have already selected and purpose to keep up a large and well-selected stock of wines, brandles, clgars, tobacco, &c., and our country merchants would do well to remember them while making selections for their fall trade. Mr. Job Dawson, long and favorably known in this line of business, is with these gentlemen, and will be pleased to welcome his old friends.

MONSTER CARGOES .- The favorite iron steamship South Carolina, Captain S. Adkins, sailed from New York yesterday afternoon. full. This is beyond all doubt the greatest cargo of general merchandise ever cleared in a steamer for Charleston, and tells very plainly of the volume of freights flowing to this port by the fine fleet of steamers now on the line. Late last evening the sister ship to the South Carolina, the new iron screw steamer Clyde, sailed for New York with the largest cargo of the season to that port from Charleston.

THE ICE QUESTION-THE ACTION OF MESSES. GAGE & CO. SUSTAINED-A LIBERAL OFFER FROM THE FIRM .- It will be remembered that, a short time since, the proprietors of the Charleston Ice-House advanced the price of ice from one to two cents per pound, on the stated ground that they wished to reduce the consumption of ice, and make the stock on hand last until more could be procured. Many of our citizens considered the increased price exorbitant, and one or two published letters demanding that the executors of the trustees of the Charleston Ice-House Company enforce the covenant between the trustees and Messrs. Gage & Co., by which the latter bound themselves to furnish ice "to the inhabitants of Charleston, in sufficient quantities, and at a price not to exceed one cent per pound."

It appears from the following correspondence that Messrs. Porter & Conner, Pressley, Lord & Inglesby, Rutledge & Young, solicitors for the trustees of the late Charleston Ice Company, moved for the protection of the community against the alleged breach of the covenant; whereupon Messrs. Gage & Co. wrote to them, giving the most satisfactory reasons for the advance in price, and showing that they sold their ice at prices from one to four hundred per cent. lower than the prices current throughout the country-New York and Boston not excepted-notwithstanding the high price for getting it here, and the wastage by melting and loss in selling it in small quantities. The letter of the firm is subjoined :

CHARLESTON, September 13. Messrs. Porter & Conner, Pressley, Lord & In-glesby, Rulledge & Young, Solicitors for the Trustees of the late Charleston Ice Com-

pany:
GENTLEMEN—While we cannot but praise
the commendable spirit which induced you to
move for the protection of this community move for the protection of this community against what you supposed an imposition, we propose to show that our motive in increasing the price was not an unworthy one. It is well known that the ice crop of last winter was the smallest ever gathered. This limited supply at once caused it to appreciate 400 to 500 per cent. Anticipating a warm summer, and a heavy demand regardless of this great increase, our importation for the first seven months of 1870 was six hundred tons in excess of the whole year of 1869. Up to the 5th of September last we continued retailing at one cent per pound, being 100 to 400 per cent. lower than prices current throughout the country.

New York and Boston not excepted. At that date we were most unexpectedly informed to the Moston of the Moston formed to the Moston of the Moston formed that the Moston is the Moston of the Moston formed the Moston in the Moston of the Moston formed formed the Moston formed formed the Moston formed for date we were most unexpectedly informed that the stock of the Meeting street Ice House was nearly exhausted, (now out)—the Savan-nah dealers refusing country trade and direct-ing it to us. With a limited supply, and this increased business, we had to chose between one of two evils, to raise the price and thereby one of two evils, to raise the price and thereby reduce consumption, or to close our doors. We selected the former, feeling that if any injury was done it could be repaired; the latter would have been remediless. In proof that gain was not the motive, we now propose to ascertain the amount made by such increase by comparing the corresponding sales of the same period last year. The amount in excess this year we are willing to turn over to any charitable society or societies you may select.

Former rates will be resumed on the arrival of the large schooner Montana now on the way.

Very respectfully yours, ALVA GAGE & Co. To this letter the solicitors responded as follows, completely exonerating the firm from the charges made against it:

OFFICE OF PORTER & CONNER. | CHARLESTON, S. C., September 15, 1870. Alva Gage, Esq. :

DEAR SIR-Your letter is received, and we DEAR SIR—Your letter is received, and we are instructed by the trustees to say that the reasons given by you for the increase in the price of ice are satisfactory, and they feel that they will best discharge their duty in protecting the community by declining to proceed at law for the alleged breach of the covenant.

They request us 'to say that they do not feel themselves at liberty to indicate the charities to which the excess in price should be given. They prefer to leave the selection to you.

Yours, very respectfully,

PRESILEY, LORD & INGLESSY,

RUTLEDGE & YOUNG,

PORTER & CONNER.

THE REGATTA YESTERDAY.

The Katey Victorious-Presentation of

The second race, made under the auspices of the Sullivan's Island Regatta Club, came off yesterday afternoon. The weather was exceedingly unpropitious, there being no wind and much rain, and a vote was taken as to whether the race should not be postponed until Satu-day next; but the majority decided that there was "no time like now," because all of the arrangements had been made, and the excitement and enthusiasm of the Moultrievillians was wound up to the highest possible pitch. Consequenti;, the young captains were requested to get into position, and then the hurry and confusion was ludicrous. One young gentleman found that during the excitement he had nailed his temporary bowsprit in such a way that one of the large spikes had passed through the mainsail, which could not possibly be hoisted, and the bowsprit came up in short order, and the jib was thrown on the wharf. Another, a well known Vendue Ranger, suddenly found that the tide had risen up to his neck. He soon managed, however, to scramble up the sides of his craft, and, amid shouts of applause and laughter, declared that he was not wet, as his cigar was still burning!" He had hardly gotten fixed, when another of the party (whose name we did not learn,) "went down into the sea." These feats having been satisfactorily performed, the the following order: Aurora, Mr. E. F. Schachte; Arrow, Dr. George Winkler; Lily, Mr. David J. Touhey; Katey, Mr. John Smith,

and Fleetwing, Mr. Casimer Patrick. The Aurora tacked too soon and ran back into the cove, necessitating another tack, when she seemed to have taken a sudden fancy for a trip to Mount Pleasant, and thitherward she went. The others all kept very nearly together until near Fort Ripley, and rounded the fort as follows: Katey, Arrow, Fleetwing, Lily, Aurora—there being a difference of three and one quarter minutes between the first and last boats. The home run was made much more rapidly than was anticipated. A good breeze had sprung up, and the tide was in favor of the racers. The boats were painted almost exactly alike, and it was almost impossible to tell which was ahead until they had so nearly reached the goal as to leave little doubt as to the final result. The little Katey, however, came up beautifully, keeping steadily ahead and gaining rapidly until she reached the goal, amidst the shouts of her friends, and indeed every one else, as all welcomed heartily the brave little vessel which on the previous occasion came in fourth. She made the run in 1 hour and 7 minutes. The others, with the exception of the Aurora, came in exactly in the reverse of the order in which they came at the last race. The time was as follows: Fleetwing, I hour and 14 minutes; Arrow, I hour and 191 minutes; Lily, 1 hour and 251 minutes. The Aurora came in fitth in each race; her time on this occasion was 1 hour and 364 minutes.

The prizes, two handsome silver goblets, inscribed "Sullivan's Island Regatta Club, Prize Goblets, September 1, 1870," were presented to Mr. Smith, the owner of the Katey, by Mr. John J. Touhey, the president of the club, with the following remarks:

Sir—The pleasant duty devolves on me this day, as chief officer of the club, to present you with the prize which you have so worthly won on this occasion. The manner, sir, in which you have managed your fast-sailing craft expended. ited my admiration, as I am confident it must have done that of all those who witnessed the race. You have been successful, but the race was well and nobly contested by your oppo-nents. In presenting this beautiful pair of goblets to you, I am confident that you will cherish the prize as a trophy, and whenever you imbibe you will think of your brother-members. Gentlemen, permit me to propose the health of the successful condition and the inture prosperity of the Sullivan's Island Re-gatta Club.

The goblets were received by Mr. Smith and the response was made by Colonel R. S.

Duryea, in his usual inimitable style. The race was a complete success, and all is expected in the course of the next fortnight.

THE SOUTH CAROLINA INSTITUTE FAIR. The preparations which are being made for the approaching Institute Fair show that the officers of the Institute are resolved to make it a grand affair. The Washington Race Course has been leased for a term of ten years, and a substantial building is now in course of erection there When completed it will measure three hundred feet in length by eighty feet in width, and forty feet in heighth to the top of the roof. This extensive building will be fitted up with especial reference to the purposes of the fair. It will be well lighted and ventilated, having one hundred and fifty-four windows (of which eighteen are double) and fourteen doors. The main entrances will be on either end. Four stairways will lead to a piazza ten feet broad, which will run the entire length of the building. It faces the race track, which will be placed in thorough order for racing and trotting matches.

A steam engine, amply sufficient in point of power, will be placed in the north end of the building, and supplied with as much shafting as may be necessary to run all the machinery placed on exhibition. Refreshment stands will be erected, and will be sold at auction, with the special condition that no spirituous liquors whatever shall be sold by those using them. The entire grounds will be surrounded with a close fence eight feet high. Large stables will be erected for horses and stock which may be on exhibition, and arrangements have been made to supply abundant fodder on the grounds at city prices. The land in the neighborhood of the main building will be prepared for the purpose of testing the

working capacity of agricultural implements. The fair will be open to all, white and colored, and no distinction of race will be made. The best articles will receive the highest premiums, no matter who sends them. Convicts in the State Penitentiary will also be permitted to place the productions of their skill on exhibition on the same terms as other exhibitors. It is not generally known, perhaps, that one of the highest premiums given at the State Fair last season was awarded to a convict for the best broom; yet we are informed that such

was the case. The work on the building is progressing rapidly, under the management of Mr. G. W. Egan. The roof is nearly completed, and the weather-boarding is being put up.

We learn that the reported extension of the City Railway from the Rutledge avenue terminus to the Fair Grounds will not be made. It is to be feared that from the lack of this extension, many of our citizens and visitors will be prevented from attending the fair.

It will be recollected that the directors of the Institute at the last meeting of the City Council, petitioned for a loan or appropriation from the city of \$15,000. As yet, Council has taken no action, beyond referring the matter to a committee. As the success of the fair is in a great measure dependent upon this amount of money being secured, it is to be hoped that the loan or appropriation will be made at the meeting of Council to be held on Tuesday

BILL HEADS printed on fine paper at \$3, \$4, \$5, \$6 50 and \$8 50 per thousand, according to size, at THE NEWS Job Office.

ELECTION OF OFFICERS .- At the first annual meeting of the Terpsichore Social Club, held last evening, the following officers were elected: Mr. H. T. Surau, president; Mr. L. E. Hendricks, vice-president; Mr. J. W. McKenry, ecretary and treasurer. The following committees were appointed: Committee on finance-Mesers, T. J. Melvin and J. E. Passaillaigue. Committee on letters-Messrs. J. R. Jivins, J. E. Bonneau and C. E. Surau. Atter an adjournment, the members repaired to Kroeg's Hall, where a sumptuous repast awaited them.

THE BRIGNOLI MARRIAGE .- This event, about which there have been several contradictory statements published, would seem from the following paragraph, in a New York letter, September 12,) to the Philadelphia Record, to have actually taken place, and at no very re-

Brignoli, the tenor, is a happy father, his wile, formerly Miss Isabella McCuiloch, the prima donna, having lately presented him with a pair of twins. The mother and children are doing well, and the popular tenor is in constant receipt of the congratulations of his musical and other friends. The idea of a romantic opera lover—a troubadour, a hero of the lyric stage—blessed with a pair of twins. the lyric stage—blessed with a pair of twins, for all the world like Mr. Micawber, seems exceedingly incongruous.

NEW RICE.-The Savannah Advertiser of yesterday states that "whilst the marine records have been anxiously watched, and disasters to shipping upon the sea noted with unusual apprehension, the late northeast storms, and consequent high tides, have wrought boats left, at five minutes past 6 o'clock, in disaster and created almost equal apprehension among our rice planters along the coast. We are told that an immerse amount of damage has already been received by the new crop, which will suffer to the extent of probably one-tourth from this cause; the effect upon the market being seen already by the advanced quotations, a large amount of this staple having been cut and now lies sweating in the fiells."

> DEATH .- Colonel John C. Rhame, of Lynchburg, S. C., dled on Friday last. The Sumter

> Watchman says: Colonel Rhame served in various public offices, among which were commissioner of roads, tax collector and sheriff. He rose successively through the several grades of lieu-tenant, captain and major, to the colonelicy of the 20th Regiment South Carolina militia, and resigned the office of colonel on his election to he sheriffalty of Sumter District, in 1852. Was elected captain of a company of reserves dur-ing the war, and participated in the battle of Dingle's Mill, with such of his command as he could get together. Was a secessionist and staunch Democrat. Was elected president of the Democratic Club of Lynchburg, during the Seymour and Blair campaign, and took great interest in the cause, although suffering great bodily affliction at the time.

> OUR SAILING PACKETS .- The schooner Wapel'a, Captain Penny, arrived yesterday from New York, in four days, consigned to Messrs. W. Roach & Co. She brings a large cargo of general merchandise. This most successful line of salling vessels, known as the Merchants' Line, and which for years have run with unusual success, is, we are pleased to see, enjoying an extensive patronage, and are giving increased facilities to the business community in the cheapness of their rates and their quick voyages. Messrs. W. Roach & Co., who are the agents here, and who manage these vessels with the greatest success, are daily adding to the facilities of shippers. Merchants will find it to their advantage to patronise this excellent line of vessels.

> > A CARD.

To Alonzo J. Ransier: SIR-I have been informed by a friend that you, in a speech on Monday evening last, at the Military Hall, had the aulacity to say that whilst i am supporting the Hon. R. B. Carpenter, that in 1861 I was compelled to flee from Charleston to escape the auction block. Allow me to inform you that you have told a malicious falsehood, and I am prepared to prove it. Therefore you can open your batteries as soon as you wish; then let the public judge as to the truthfulness of your statemed satisfied with the result. Another race | ment. I am truly sorry that I am compelled to appear before the public, but my own self-respect demands it. W. J. Rour, respect demands it. A Radical Reformer.

A TAINTED ATMOSPHERE. Maiarlous fevers are most prevalent in the fall. Heavy and unwholesome exhalations then arise from the earth, and the great disparity between the temperature of day and night predisposes the system, enfeebled by the summer heats, to enidemic diseases. The secretive organs, the liver especially, are apt, at this period of the year, to become inert and sluggish, and all the bodily powers require renovation. The best, indeed the only protection against the morbid influences of the season is a wholesome medicated stimulant. Pre-eminent among the restoratives of this class, and indeed foremost among the remedial and preventive medicines of modern times, stands HOSTETTER'S STOMACH BITTERS. Its reputation is co-extensive with the Western hemisphere; is has been a standard article for twenty years; its sales (a+ may be ascertained by the revenue returns) are far larger than those of any other proprietary preparation on this continent; and the testimony in its favor embraces letters of approval from the most distinguished members of all the learned professions and from well known residents of almost every city in the Union. These are its credentials. To state what it is doing to prevent and assuage the sufferings of the human family would require more space than can be given to the subject here. The dyspeptic, the billous, the nervous, the weak and emaciated, the despending, the broken down, find in its reno-

vating and regulating properties a sure and im-

mediate means of relief. It is a pure vegetable

specific at once safe and potent, and for which

ne whole materia medica affords no substitute.

22 AWAY WITH SPECTACLES .- OLD Eyes made new, easily, without doctor or medicines. Sent postpaid on receipt of 10 cents. Address Dr. E. B. FOOTE, No. 120 Lexington avenue, New York. A GRAND EPOCH IN SCIENCE .-

From the time when, in 1834, Dr. RUGGE discovered "Carboile Acid" and its extraordinary medical effects, nothing in the history of Medicine has equalled it. Largely used by the French physicians in treatment of consumptive and scrofulons diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. Nothing else of the present day can equal HEN BY'S SOLULION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dote has been taken, and we cordially recommend it to the public .- (Editor "Argus." jan17 lyr

Special Notices.
